

Educational Objectives

- Initial treatment screening, admission procedures, and assessment techniques.
- Methadone, buprenorphine, and naltrexone pharmacology, and clinical pharmacotherapy.
- Drug testing as a tool.
- Information about co-occurring medical disorders
- Information about co-occurring psychiatric disorders
- Knowledge about multiple substance use
- Medication assisted treatment for women with opioid addiction during pregnancy

Continuing Medical Education Credits

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME). The National Medical Association (NMA) is accredited by the ACCME to provide continuing medical education for physicians. NMA designates this educational activity for a maximum of seven AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Contact Hours

This continuing nursing education activity was approved by the Maryland Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This activity is designated for a maximum of seven contact hours. Nurses should only claim credit commensurate with the extent of their participation in the activity.

The Center for Substance Abuse Treatment is an NBCC-Approved Continuing Education Provider (ACEP[™]) and may offer NBCC-approved clock hours for events that meet NBCC requirements. The ACEP is solely responsible for all aspects of the program. JBS International, Inc. is an approved provider through NAADAC, the Association for Addiction Professionals. This activity is approved for up to seven contact hours. Counselors should only claim credit commensurate with the extent of their participation in the activity.

Faculty Disclosure

As a provider accredited by ACCME, the sponsor of this course must ensure balance, independence, objectivity, and scientific rigor in its educational activities.

All faculty participating in an accredited CME activity are required to disclose commitments to and/or relationships with pharmaceutical companies, biomedical device manufacturers or distributors, or others whose products or services may be considered to be related to the subject matter of the educational activity.

BROOKFIELD

July 27, 2016

**Sheraton Milwaukee
Brookfield Hotel
375 S. Moorland Road
Brookfield, WI 53005
(262) 364-1100**

PROGRAM DESCRIPTION

The purpose of this workshop is to provide information about methadone, buprenorphine, naltrexone and medication assisted treatment for opioid addiction.

Opioid addiction is a problem with high costs to individuals, families, communities, and society. The costs of opioid addiction include exposure to AIDS, other STDs hepatitis, and tuberculosis; legal problems including incarceration; financial catastrophes, homelessness, and hunger; and loss of health, family, jobs, and even life.

The recent rise in the use of heroin and previous issues related to methadone mortality have brought additional scrutiny to the use of methadone, buprenorphine and other approved medications for the treatment of opiate addiction. The Substance Abuse and Mental Health Services Administration is proactive in developing and delivering targeted clinical training to providers to assure that they apply best practices and the most current information on the use of approved medications in MAT.

WHO SHOULD ATTEND

This program is designed for physicians, nurse practitioners, nurses, physician assistants, counselors, pharmacists, program administrators and other clinical staff.
